

Some of my work (pictured above)

I'm here to make art for whatever creative needs you may have!

I am a largely self trained artist in regards to illustration, but have some professional experience with graphic design! I can also do basic 3D models and video editing, so I have a diverse skill set that will likely suit whatever needs you have!

Art Portfolio

Awesome artist and very skilled at what he does!

- Professional graphic design capabilities
- Personally trained illustration
- Knowledgeable about video editing

More of my stuff (also pictured above)

Third instance of my stuff (pictured to the side this time)

Here's how I work

My business process is really simple! First thing you need to do is contact me about an idea that you have and I'll let you know if it's something within my capabilities.

Afterwards we can discuss payment and if we come to an agreement, I'll have you sign a commission form, which outlines some of the things you are and aren't allowed to do with what I make as well as any other obligations tied to it.

Don't be shy! Show them how fabulous you are.

"This guy really knows his stuff!"

- John Doe

"I was really surprised at how high quality the final product ended up being."

- My buddy Kyle

What you offer:

- Illustrations
- 3D Models
- Edited Videos

Your most impressive clients:

- The Pleasant Grove Rock Opera
- My friend on discord who paid me like 300 dollars for one drawing
